

## Ithaca Agway Cover Crop

**Peas & Oats** is cold hardy and fixes nitrogen and is a weed suppressant.

*Available by the pound and 50lb.*

**Winter Rye** this winter-hardy grass reduces nitrogen leaving soil and suppresses weeds.

*Available by the pound or 50lb.*

**Organic Buckwheat** is great for weed suppression as it grows quickly and makes phosphorus, calcium, and mineralized rock phosphate available for later crops.

*Available by the pound and 50lb.*

**Crimson Clover** is a winter annual that is better grown in the summer as it is not winter hardy. This cover crop releases nitrogen for following plants.

*Available by the pound and 50lb.*

**Hairy Vetch** is a winter annual, winter hardy cover crop that releases nitrogen faster than other cover for following plants.

*Available in by the pound and 50lb.*

**Peas & Triticale** is a hybrid of wheat and rye is a winter hardy cover crop and is easier to control than winter rye.

*Available by the pound and 50lb.*

**Organic Oats** is not very winter hardy and is easy to kill to make room for following crops.

*Available by the pound and 48lb.*
